

Magento 1.X installation guide

Implementing the Webeyez extension from Magento is super easy.
Please follow the steps below:

1. Open the Webeyez extension settings by clicking on System -> Configuration

Extension Options

2. Copy client key to enable the plugin - Where can I find the key?
 - **Registered customer** - Click [HERE](#) to copy the client key.
 - **New to Webeyez** - Register to Webeyez by clicking [HERE](#).
After registration [COPY](#) your client key.
3. Save the client key by clicking "Save Config"
